

BANSHEE

LAND AUTONOMOUS MUNITIONS PLATFORM

The Banshee platform is a high performance, highly mobile Autonomous Unmanned Ground Vehicle (UGV) for Anti-Tank, Anti-Access, Area Denial (A2/AD) missions. Banshee gives the operator the ability to control several platforms remotely from beyond adversary direct engagement range.

Banshee offers modular adaptability with Anti-Tank mines, Drone Launchers, small Remote Weapon Stations and ATGMs, plus advanced sensing (thermal and stereoscopic) with AI for autonomous target identification and engagement. Its low-cost design ensures accessibility, while the DefendTex Autonomy Framework enables teaming and swarming for enhanced mission success. Banshee revolutionises A2/AD operations, minimising risk to personnel and resources while maximising effectiveness in complex terrains from a low-cost, attritable platform.

SPECIFICATIONS

WIDTH	650 MM
LENGTH (MM)	1000 MM
HEIGHT	300 MM
WEIGHT	<40KG UNLADEN
RATED PAYLOAD CAPACITY	50 KG
GROUND CLEARANCE	150MM

PERFORMANCE

TOP SPEED	100 KM/H
RANGE	30 KM
MAXIMUM GRADIENT	60 %
POWERTRAIN	INDEPENDENT 4WD
SUSPENSION	INDEPENDENT WISHBONE
